40 years of Union Green Bans. Dare to struggle. Dare to win.

2011 marks the 40th anniversary of the first green ban at Hunters Hill, placed by the then BLF Secretary, Jack Mundey. The struggle of collective action to make the rich, the greedy and the powerful accountable for a better society has been a great victory for building workers and something they should be proud of. On the 40th anniversary, we acknowledge and celebrate this great achievement.
